

ISNS 2023

2023 Int'l Conference on Information Security and Network Security (ISNS 2023) will be held during July 14-16, 2023 in Guilin, China. The conference will cover issues on Access Control, Anti-Virus and Anti-Worms,

Authentication and Authorization, Active Defense Systems, Adaptive Defense Systems, Analysis, Benchmark of Security Systems, Biometric Security, Complex Systems Security, etc. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods in related fields.

CALL FOR PAPERS

Access Control
Anti-Virus and Anti-Worms
Authentication and Authorization
Active Defense Systems
Adaptive Defense Systems
Biometric Security
Complex Systems Security
Cryptography
Database Security
Distributed Systems Security
Data Protection
High Performance Security Systems
Hardware Security
Information Privacy
Internet and Network Forensics
Intrusion Detection and Prevention
Key Management and Key Recovery
Network Security
Signature and Key Agreement Protocol
Security Policy
Security Protocols
Security Simulation and Tools
Trusted Computing and Trustworthy
Computing Technology

Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own.
