

COC 2023

The 7th Int'l Conference on Organic Chemistry (COC 2023) will be held during July 14-16, 2023 in Guilin, China. The conference will cover issues on Applied Organic Chemistry/Organic Chemical Engineering,

Bioorganic and Medicinal Chemistry, Classification of Organic Compounds, Macromolecular Chemistry, Metal, Organic and Enzyme Catalysis, Novel Organic Materials (Design, Synthesis, Characterization), etc. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods in related fields.

CALL FOR PAPERS

Applied Organic Chemistry
Organic Chemical Engineering
Bioorganic and Medicinal Chemistry
Organic Compounds
Interfaces in Organic Electronics
Macromolecular Chemistry
Metal, Organic and Enzyme Catalysis
Natural Products and Heterocyclic Chemistry
Novel Organic Materials
Organic Chemical Spectroscopic Analysis
Organic Geochemistry
Organic Photochemistry
Organic Reactions
Organic Sensors, towards Biomedics
Organic Surfaces and Their Properties
Organometallic Chemistry
Physical Organic Chemistry
Properties of Organic Compounds
Solid-state Organic Chemistry
Structure and Mechanism
Theoretical Organic Chemistry
Other related issues

Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own.
